

# Lee Class Summer 2, 2024

Acorn Park

## PE

Lee class will be taking part in Athletics this term. They will be developing the skills of running, jumping, throwing, relays and teamwork. In Running, they will be developing the ability to maintain a steady and appropriate pace during short to medium length runs. They will begin to understand how to begin a sprint from a crouched position. In Jumping they will be able to perform a basic standing long jump, focusing on swinging arms and bending knees to gain momentum. They will also begin to use appropriate arm action to maximise height. In Throwing they will be developing and mastering the skills to demonstrate a controlled underarm throw and overarm throw. They will be developing the understanding of the correct technique in discus and shotput. In Relays and Teamwork, they will begin to understand the principles of relay races, including how to pass a baton smoothly and safely between team members. They will be able to show good teamwork during group activities, understanding the importance of supporting and encouraging others. Later in the term, they will be developing the understanding of how to play ultimate frisbee.

## Animal Care

This term will Lee students will be working on his Animal Accommodation unit and hopefully finishing it and completing the minibeastng area he is helping set up.

## English

In English Lee will be studying Film Studies and preparing for next year's placement, whether it is school or college.

## Science

This term will see our year 11's and post 16 class continue with revision and completing the rest of their exams. School trips exploring links with science and other subjects have been planned. Stem based projects and networking with scientist will be on offer after the GCSE exams.

## Maths

Lee class will be practising Maths in the real world this half term. Learning how to calculate their finances, budget, work out dimensions in the home, measure ingredients for cooking, shopping for ingredients, calculating discounts and offers and using money.

## Employability

Lee will continue to focus on the team-working skills. They will learn to plan as part of a team, be able to work positively as a member of a team and review their performance.

## PSHE

Lee class will be completing a First Aid at Work course this term.

## Citizenship

Citizenship - Over the following term we will be looking at the following`

A brief history of Parliamentary democracy  
What role does the monarchy play in the UK

Is it time for the monarchy to change?

How does the system of parliamentary democracy fit together

Left wing and right wing

Political parties

Political parties in the UK

How do you become a member of parliament?

Should 16-year-olds be given the vote

What does an MP do?

What's going on in the House of Commons?

Parliamentary Quiz

How does Parliament make laws?

How should the House of Lords be modernised?

Influencing government: pressure groups and lobbying

How does the government work

## Art

During Summer 2, Lee class will be making a 3D decoupage for animal care using the Minibeasts theme. They will study multistage design, designing on paper, moving to wood.

They will also explore the Olympics and Poster design.
